

S5 CHEMICAL SAFETY BOOTS

A chemically protective anti-static boot with an integral steel toe cap and slip resistant sole.

Hazmax™ boots are trusted around the world by industry and the emergency services to protect the wearer against hazardous and aggressive chemicals, with chemical permeation data available for 100+ common chemicals (see back page).

CERTIFICATION

- **EN 13832-3: 2018 A,K,O,P,Q,R,T**
Chemical Protective Footwear
- **EN ISO 20345:2022+A1:2024 S5 SR CI FO**
Safety Footwear
- **PPE Regulation (EU) 2016/425**
Personal Protective Equipment

SPECIFICATIONS

Chemically resistant boot certified to **EN 13832-3:2018** (footwear protecting against chemicals)

S5 Category Safety Boot Complies with the requirements for safety footwear in EN ISO 20345

Cleated vulcanised rubber outsole for **maximum grip** in wet and oily conditions (**SR**)

Integral 200 Joule epoxy coated steel **toecap** and stainless steel 1100N penetration resistant **mid-sole**

Fuel and oil resistant upper and sole ensuring the working life of the boot won't be compromised if used in oily environments

Cold insulation to EN ISO 20345 **CI** Internal temperature drops by less than 0.5°C after 30 mins inside a chamber at -17°C, 9.5°C better than required for CI marking

Energy absorbing tunnel system in heel to EN ISO 20345 **E**

Ladder Grip (LG) Additional cleats added to the instep of the footwear to improve grip on the rungs of a ladder.

Antistatic - Electrical resistance meets the requirements of EN ISO 20345 A (0.1MΩ to 1,000MΩ)

S5 CHEMICAL SAFETY BOOTS

Chemically Resistant

Highly chemically resistant Hazmax™ compound provides unrivalled protection against aggressive chemicals like acids, including >32 hours against concentrated (96%) Sulphuric Acid

Ergonomic cushioned insole

Fitted as standard, our latest cushioned insoles provide excellent wearer comfort and support and significantly improve thermal insulation

Slip Resistant sole

Cleated slip resistant moulded sole

Kick-off lug

For easy 'hands-free' removal of the boots.

OPTIONS

HAZMAX FPA Heat resistant version to EN 15090:2012 F3A Fire fighter boot standard and EN 943-2,

HAZMAX ESD Electro-Static Discharge (ESD) version to EN61340-5-1, suitable for applications such as pharmaceutical electro-protective areas and ATEX atmospheres

Maxi and Compact Overboots chemical overboots for use over the top of safety boots (maxi) or safety trainers (compact)

CARE

- Machine washable at up to 40°C
- Shelf life of over 10 years
- All Workmaster boots are REACH compliant, PFAS free and CE marked on the shaft with date and year of manufacture

SIZES

UK	3	4	5	6	7	8	9	10	11	12	13	14	15
EU	35	36	37	39	41	42	43	44	45	46	47	49	50
US	4	5	6	7	8	9	10	11	12	13	14	15	16

Note: The height of the boot can be adjusted by trimming down to the second cut line moulded into the shaft of the boot

Specifications, configurations and colours are subject to change without notice.
