A comfortable and highly durable S5 safety boot with excellent cut resistance and a hard wearing vulcanised rubber sole for long operational life.

Boot Shaft

- Cut resistance to EN388 Class 4 (requirement 2.5)
- Puncture resistance to EN 388: 2003 level 1 (39.6 N)
- Chemically resistant brown compound shaft
- Superb low temperature flexibility down to -40°C
- Cold insulation to EN ISO 20345 CI
- 200 Joule Epoxy coated Steel toe cap to EN ISO 20345
- Seamless construction
- Kick off lug
- Extra shin protection
- Adjustable height
- Ankle guard
- Knitted nylon lining
- Moisture absorbing insole (removable and machine washable)
- REACH Compliant

Boot Sole

- Blown mid-sole reduces weight and increases cushioning for greater wearer comfort
- Stainless steel, penetration resistant mid-sole to EN ISO 20345 S5
- Greater cut resistance than conventional soles
- Two to three times the wear resistance of conventional soles
- Black vulcanised rubber sole for maximum grip - 30% better than a conventional safety boot sole
- Slip resistance performance twice that required by EN 13287 SATRA TM144 standards
- Fuel and oil resistant
- Resistance to hot contact 60 seconds 300°C.
- Energy absorbing tunnel system conforms to EN 20345 E

Care

- Machine washable at up to 40°C
- Shelf life of over 10 years
